

# **FINAL PUBLIC NOTICE**

The Town of Edenton has applied for Federal Emergency Management Agency (FEMA) Public Assistance (PA) Program funding through North Carolina Emergency Management (NCEM) as a sub- recipient.

Under the National Environmental Policy Act (NEPA), federal actions must be reviewed and evaluated for feasible alternatives and for social, economic, historic, environmental, legal, and safety considerations. Under Executive Order (EO) 11988 and EO 11990, FEMA is required to consider alternatives, and to provide a public notice of any proposed actions in or affecting floodplains or wetlands. EO 12898 also requires FEMA to provide the opportunity for public participation in the planning process and to consider potential impacts to minority and low-income populations. This notice may also fulfill requirements under Section 106 of the National Historic Preservation Act (NHPA).

Funding for the proposed project will be conditional upon compliance with all applicable federal, tribal, state, and local laws, regulations, floodplain standards, permit requirements and conditions.

**Sub-Applicant:** Town of Edenton

**Project Title:** 126981-Edenton Public Parks and Break Water; PA-04-NC-4465-PW-00286

**Location of Proposed Work:**

| Facility                              | Address                               | Latitude  | Longitude  | Date of Construction |
|---------------------------------------|---------------------------------------|-----------|------------|----------------------|
| Waterfront Colonial Park              | 210 E Water Street, Edenton, NC 27932 | 36.05554  | -76.61028  | Approximately 2000   |
| Sunfish Park                          | Dock Street, Edenton, NC              | 36.05641  | -76.61120  | Approximately 1995   |
| Cannon Strip-Elizabeth Van Moore Park | 211 E Water Street, Edenton, NC 27932 | 36.056446 | -76.607109 | Approximately 1940   |

**Special Flood Hazard Area Zone:**

This project is for the repair of replacement of the break water structure at Waterfront Colonial Park, repairs to a deck and riprap at Sunfish Park and repairs to riprap at Cannon Strip-Elizabeth Van Moore Park. All work is located in the AE (1% Annual Chance Flood Hazard). Confirmation of location in a Special Flood Hazard Area (SFHA) was determined by the Chowan County Flood Insurance Rate Map, Panel Number: 3720780400K, dated 12/21/2018. The proposed work conforms to all applicable State of North Carolina and local floodplain regulations. There is a potential for the facility to be impacted by future flooding events due to

its location within the AE zone. The proposed work will not take place in wetlands per the United States Fish and Wildlife Service National Wetlands Inventory and will have little potential to impact or affect wetland values.

**Proposed Work and Purpose:**

The Town of Edenton will remove and replace precast concrete panels on a break water structure, pressure treated lumber and decking, mounting brackets, anchor bolts, fill, gravel, steel sheet piles, armor stone and sod. This will restore the parks and provide access to recreational and open space resources in the community. There will be minimal impacts to the floodplain.

**Project Alternatives:**

**Alternative #1** (No action): The 'no action' alternative would ultimately result in a negative impact on the park facilities because access will continue to deteriorate. The park functions as an important recreational resource. Additionally, the park promotes the natural and beneficial values served by the floodplain and inspire open usage in the surrounding community.

**Alternative #2** (Relocation): Relocation of the facility is not a practicable alternative as the parks are functionally dependent on remaining within the floodplain. The parks facilitate open space usage within the community. The removal of the facilities would negatively impact the community and the floodplain.

**Comment Period:**

Comments are solicited from the public; local, state or federal agencies, and other interested parties in order to consider and evaluate the impacts of the proposed project. The comments should be made in writing and addressed to:

FEMA Internal 11988 Reviewer  
FEMA Region 4  
3003 Chamblee-Tucker Road  
Atlanta, Georgia, 30341

Alternatively, comments may be emailed to: [FEMA-R4EHP@fema.dhs.gov](mailto:FEMA-R4EHP@fema.dhs.gov). Please send comments with the subject line [DR-4465-NC-00286 11988 COMMENT].

All comments are due by no later than 30 days of the posted date of this notice.
